

Ninh Hoang Khai

FRESHER FRONTEND DEVELOPER

✉ nhkkhai@gmail.com ☎ 0945772109 📍 Ho Chi Minh City, Viet Nam 🔗 nhkkhai.super.site

SUMMARY

With a strong motivation and interest in programming, I completed four projects during my college years and learned more than four months of coding in real-world scenarios. After spending 2 years in the military, I decided to return to the technology industry and did a 3-month internship to quickly get acquainted with the work. In the short term, I want to become a senior full-stack developer and continuously learn new things while contributing to creating great software.

EDUCATION

Nam Can Tho University <i>Information Technology</i> <ul style="list-style-type: none">• GPA: 3.5/4.0• English: Basic communication	2018 – 2022 Can Tho, Viet Nam
--	----------------------------------

WORK EXPERIENCE

FPT IS <i>INTERN FULLSTACK DEVELOPER</i> <ul style="list-style-type: none">• Experience in the design of a Chronic Disease Examination System in FHIR/HL7 (medical) standards, Microservice architecture• Develop Dashboard interface using ReactJS (TypeScript) and Redux• Optimize code, database and build system functions and processes• Develop Spring Boot, PostgreSQL skills, coordination with other team members	02/2025 – 05/2025
VIETGAME <i>GAME DEVELOPER</i> <ul style="list-style-type: none">• Piggy Game Development – Spin and Win Game• Build interface and effects using Starling (ActionScript) according to design• Optimize code and system to improve game performance	10/2022 – 02/2023

PROJECTS

Personal Portfolio 🔗 <i>Frontend Developer</i> Technologies: ReactJS, Bootstrap Description: Worked on a personal portfolio website to showcase my technical skills and some completed projects. Designed and built a modern and responsive UI using ReactJS and Bootstrap. Key Contributions: <ul style="list-style-type: none">• Build a fully responsive single-page application (SPA) using ReactJS.• Integrated interactive user interface components for better user engagement.	09/2022
KaiSneaker – E-commerce Website 🔗 <i>Full Stack Developer</i> Technologies: ReactJS (TypeScript), PostgreSQL, RESTful API , Java (Spring Boot) Description:	04/2022 – 06/2022

A modern e-commerce web application for selling sneakers with complete frontend/backend integration.

Key Responsibilities:

- Designed and developed user interface using ReactJS for dynamic product browsing and checkout flow.
- Integrated RESTful API for real-time control of products, users and orders.
- Build and manage database structure using PostgreSQL.
- Interact in a full stack environment to create smooth data/frontend migration and operations.

CinemaNHK – Movie Ticket Booking System [🔗](#)

09/2021 – 12/2021

Full Stack Developer

Technologies: C#, SQL Server, DevExpress, Microsoft Visual Studio

Description:

An desktop application for the booking and management of cinema tickets including user booking, employee information and ticket scheduling.

Key Responsibilities:

- Developed Windows Forms-based UI using DevExpress components.
- Created business logic underlying bookable, schedule management and employee record keeping in C#.
- Designed and maintained a relational database with SQL Server.
- Efficient and fault-tolerant service to booking and admin operations.

Project Management – Construction Management System [🔗](#)

03/2021 – 05/2021

Technologies: C#, SQL Server, Microsoft Visual Studio

Description:

Desktop construction project management application, tracking all project information, timelines, and resources.

Key Responsibilities:

- Developed user interface and business logic using C# for .NET framework.
- Implemented and managed SQL Server database to store project-related data.
- Implemented features to create, update, and report on project records.

SKILLS

Frontend

- ReactJS (TypeScript), Redux, SCSS
- Bootstrap, Ant Design

Backend

- Spring Boot (Java), Microservice,
- C#, Starling (ActionScript)

Database

- SQL: MySQL, PostgreSQL
- NoSQL: MongoDB

Tools

- Git, Github, Storybook
- Gitlab, Docker

SOFT SKILLS

For Work

- Teamwork, proactive learning
- Time management, research and testing of new technologie
